Reasons for Allowance

2. Claims 1-16, 18, 20-26, 28-42, 44 and 46-49 are allowed. The claims will be renumbered as 1-44.

3. The following is an examiner's statement of reasons for allowance: the reference to Tomko does not disclose or fairly suggest, among other things, granting at least one entitlement to said person, in which: said person identifies themselves with the aid of the means of identification which has been previously associated therewith; and /e/said entitlement is granted to said person when said entitlement has not already been granted to said person a number of times equal to a predetermined number, by consulting, in a database of entitlements, the entitlements already granted to persons, on the basis of an identifier as defined by independent claims 1 and 26; calculating a key associated with said person, the key being able to take a much smaller number of values than the number of persons apt to require the generation of a unique means of identification, and high enough for any two persons to be associated with different keys, with a predetermined level of probability; and storing said key in a database of the identities in association with an identity of said and in which the calculation of the key is random or performed from biometric data relating to said person as defined by claims 10, 16 and 36, 42 ; the entitlement is granted to said person when said entitlement has not already been granted to said person a number of times equal to a predetermined number, in which when a match has been found in step/b/, the unique identifier of the means of identification associated with said person which was stored in the biometric database in association with the biometric data relating to said person is added to a first list of the identifiers of the revoked means of identification, and, in which step /e/ is selectively implemented depending on whether the identifier of the

Art Unit: 2624

means of identification with which said person is identified is or is not stored in a second list of the identifiers of the revoked means of identification as defined by claims 22 and 48; and the system further comprising a first entity designed to implement means for participating in generating a unique means of identification associated with at least one person, and a second entity designed to implement means for participating in granting at least one entitlement to at least one person as defined by claim 49. It is for these reasons and in combination with all of the other elements of the claims that claims 1-16, 18, 20-26, 28-42, 44 and 46-49 allowable over the prior art of Tomko.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
